IT HAS PRODUCED LOWER RECEIPTS AND A GREATER DEFICIENCY THAN EXISTED IN

ANY CORRESPONDING PERIOD FOR MANY YEARS ITS APOLOGISTS AMAZED.

[BY TELEGRAPH TO THE TRIBUNE.] Washington, Nov. L.—The strongest indictment the campaign just ending is the official state ment of the Treasury Department issued today, showing the receipts and expenditures of the Government for the month of October. It shows in any month in the last thirty years; that the first two calendar months of its operation are ess than the receipts of any two months since greater than in any month for many years. The people who announced as an apology for McKinley law does not-produce enough revenue oking at each other in silent astonishment to-Never, even in the darkest days of the panic which followed Democratic control and receipts fall as low or the deficiency prove as great as in the month just ended. CONDITION OF THE NATIONAL BANKS. GOOD SHOWING MADE BY THEIR LATEST RE-PORTS TO THE CONTROLLER.

Washington, Nov. 1.-The report of the c of the 3.755 National banks in the United States on October 2 last, just compiled by Controller Eckels, makes an excellent exhibit, showing, as it does, that the National banks have nearly regained the position they had attained before the panic of last year. Despite the large exports of gold since July 18, the National banks of the country have lost but little more than \$3,000,000 in gold, the total standing at \$196,927,000. The abstract of resources and Habilities of the National banks as shown by their reports for October 2, 1894, shows the following aggregates:

NO TRUTH IN THE REPORT OF OUTRAGES UPON AN AMERICAN CITIZEN AT PUEBLA.

Washington, Nov. 1.—A dispatch from El Paso, Tex., was recently published, giving an account of the outrageous treatment to which one Hugh Bryce, a citizen of the United States, was said to have been exposed in Mexico. The Mexican Minister transmitted this telegram to his Government in order to ascertain if there were any foundation for the report, Mr. Romero is now in receipt of a report from the Governor of Puebla, Mexico, the alleged scene of the imprisonment and of other outrages to Bryce, saying that all the books and records of the jail and courts in the last five years have been carefully examined and nothing has been found which directly or indirectly might refer to Hugh Bryce. The tele-gram from El Paso added that Bryce, provided with the necessary funds, was on his way to Washington to press a claim against the Mexican Government before the State Department. Of course, he never appeared here. The whole story is probably a mere fabrication, and the telegram was sent by some

About three weeks ago Judge William Lawrence, of Ohio, reviewed the new method of Treasury accounting in an address before the National Statistical Association, a body which admits no partisan utterance in its proceedings. Judge Lawrence is now about seventy years of age, but in vicorous health. He is a lawyer and jurist of marked ability, he has served six years in Congress and five years as First Controller of the Treasury. Probably no man living better understands the Treasury system of accounting. He declared that the former or Hamiltonian system had been proved by the experience of more than a hundred years to be alsolutely perfect, and that the new system exposed the Treasury to the most enormous frauds in a word, that the securities of the National Treasury bave been dangerously impaired. Many of the older clerks in the Treasury, Democrats as well as Republicans, also declare sub rosa that the old system must ere long be restored.

But the climax of this business has only just occurred. The Interstate Commerce Commission has been inquiring into Mr. Reinhart's crooked work in regard to this important matter is. Shall we restore the proven system of accounting instituted by Hamilton, or shall we adhere to the dangerous system devised by the disgraced and indicted Joseph W. Reinhart's As a specimen of Democratic rule this performance completely throws into the shale the vagaries of the present Administration in its management of the Hawilian affair.

AN UNSUCCESSFUL SHELL TEST.

Washington, Nov. 1.-The shell test by the Ordnance Bureau of the Navy at Indian Head to-day was not a success. Two thirteen-inch shells, one of the Taylor pattern and one of the Carpenter, were fired at a seven-inch nickel steel plate. The Taylor shell went to pieces when it struck the plate, and the Carpenter shell failed. The point, however, im-bedded itself and partly broke the plate. The veloc-try of the shells was %5 feet a second.

ATHLETIC ASSOCIATION 40 TO 0-BREWER

Cambridge, Mass., Nov. 1 (Special).-The Harvard eleven beat the Boston Athletic Association to-day scored four touchdowns in the first half of twentyfive minutes, and three in the second half of eight minutes. A week ago Yale's score against the same team was 23 to 0. Harvard's first touchdown secured in five minutes, Yale's in fifteen. The Boston team was weak at all points, but its defensive players succeeded fairly well in piling up the Harvard interferers and spolling most of the attempts to get around the end, but they never once made five yards within the prescribed four downs, and only once forced Harvard to punt on the last down. The Harvard line was impregnable throughout. The

The only really exciting feature of the first half and finally downed him on the fifteen-yard line. moment later Brewer was forced across the line for a touchdown. It was Boston's kick-off, and the ball went to Brewer, on Harvard's twenty-yard line. Brewer thought be could make more by running than by returning the kick, so he began dodging the Beston players and got clear through the crowd, thanks to his alertness and to good interference. He then ran straight away from the blockers, tack-lers and all, outstripping the field and scoring amid a 'empest of cheers after a run of ninety yards. A monte later Whitemore caught the ball on the kick-off at Harvard's ten-yard line, and ran seventy yards before he was downed. After two short rushes Charlie Brewer once more got through left tackle, and running twenty yards, scored the seventh touchdown. It was getting so dark that both sides agreed to call the game.

The whole Harvard team played a clean game. Brever did the best individual work, with Wrightington a close second. Of the Boaton players Whitten, Clarkson and Hoag showed to the best advantage. The tackles were the weakest. Summary and line-cup: moment later Brewer was forced across the line for

DREDS OF MEN AND WOMEN WHO ARE ALIVE TO-DAY.

The Czar is dead!

He was born in St. Petersburg, March 10, 1845, and ascended the throne March 13, 1881, three days after the assassination of his father. He on Soldiers' Field by a score of 40 to 0. Harvard leaves five children. The Czar was a lover of peace, and amiable in his private life, but tyrannical as a ruler. He was honest, but narrow, stubborn, and would not take advice.

For several years the Czar has been alling. His appetite has been fickle; his sleep uncerwork was rather better than the offensive. Its tain. He has felt peculiar pains throughout his body, especially about the lower portion of the limbs, and has been annoyed with frequent headaches and indigestion. It is strange that with all the medical skill at

his command so few people realized what was troubling him. More than two years ago, however, in America the meaning of these wellknown symptoms was clearly understood, and was when Harvard forced the ball to Boston's five-yard line. On the next rush Wrightington dropped the ball just before he got to the line, and Boston secured it. Hoag was sent back for a kick, but Waters was too fast. He broke through, stopped the kick and fell on the ball, scoring a touchdown. The second half was decidedly more interesting, though it was too dark for consistent playing. No sooner had Harvard secured the ball after the kick-off, and after holding the Boston Athletic Associa-tion for four dawns, than Hayes broke through the line, running sixty-five yards. He had a good lead when Garcelon, of the Bostons, began to chase him, and finally dawned him on the fifteen yard line. the Czar was warned publicly and in print that

men and women troubled with any kind of kid-ney, liver or urinary weatnesses, with depressel feelings, run down condition, or with uric acid, poisoning, rheumatic or gout troubles.

There are thousands of men and women in America to-day who have been rescued and kept alive wholly by the use of this great remedy. And if you, reader, are suffering from any trouble which you do not fully understand, you may be sure that it arises from disordered kidneys or liver. If so, heed the warning which the Czar neglected, and save yourself while you have the opportunity.

Nourishmen¹

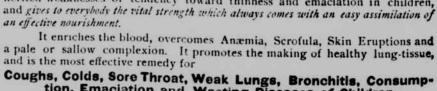

All the world needs nourishment. Most of the world needs more of it than ordinary food supplies, and this is just why such a large part of humanity takes Scott's Emulsion. When Babies do not thrive on ordinary food they grow fat and well on Scott's Emulsion.

When Children look as if they were "growing too fast" Scott's Emulsion soon makes them look as though they could not grow fast enough.

When an adult is emaciated, thin, weak and generally "run down" in health, Scott's Emulsion restores the lost strength, flesh and health.

Scott's Emulsion

of Cod-liver Oil with Hypophosphites is neither an ordinary specific nor a secret compound. It has been endorsed by the medical world for twenty years because physicians know it has no equal as a nourishment. It presents the most essential elements of food in the most palatable and easiest form for the stomach, and contains curative properties that are unquestioned. Scott's Emulsion restores health to thin, puny babies. It overcomes in-
